

777 BLAZING BLACKJACK

BLAZING 777 Black Jack Progressive is a new extra bet on Black Jack. You win if at least one of the first two cards is 7. The more cards you have with a value of 7, the higher the payout.

HOW IT WORKS

Every player makes his standard Black Jack bet. Whether you play the side bet is up to you. The extra bet is optional.

The stake is 2,50 Euro.

THIS IS HOW YOU WIN

You win the BLAZING 777 Black Jack Progressive bet if at least one of the first two cards is 7. If the first two cards are a 7, you win more. If the third card in a row (the first three cards) is also a 7, the payout is even higher. Payouts for the BLAZING 777 Black Jack progressive bet are based on the player's first two or three cards. The electronic display shows the respective payout ratios.

ENVY BONUS

You qualify for the Envy Bonus if you have placed an additional bet and a player at the table has scored one of the top card combinations. The player who has made one of these top card combinations receives the jackpot payout, but not the Envy Bonus. If the dealer has one of the top card combinations, the Envy Bonus will not be paid out.
